

UNIVERSAL WING NUT

SMART. FLEXIBLE. COMPATIBLE.

FRONT MOUNTING **NEWS!**

Recommended for indoor installations only.

INSTALL THE CONNECTOR FIRST – ADD THE WING NUT LATER

Our universal wing nut for HEX 11mm F nut, can be installed after the connector is installed on the cable.

UV-RESISTANT

DURABLE &
RELIABLE

One small part – many advantages.

No tools required!

KEY FEATURES & BENEFITS

FRONT MOUNTING

Can be mounted from the front after the connector is installed – no need to pre-install the wing nut over the cable.

WIDE COMPATIBILITY

Works with most F connectors, including TrueDrop and other standard F connectors.

EASY TO USE

Ergonomic wings provide a secure grip for quick and easy finger tightening.

DURABLE & RELIABLE

Made from high-quality, UV-resistant material for long-lasting performance in demanding environments.

MINIMIZE TRUCK ROLLS

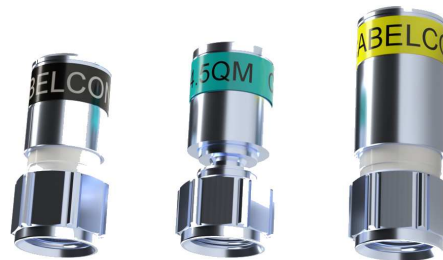

Minimize truck rolls through improved installation quality and connection management.

AVAILABLE AS ACCESSORY

Can be sold separately and used as a universal spare part.

COMPATIBLE WITH ENTIRE CABELCON PORTFOLIO

SEPARATE ACCESSORY

Ideal as a universal spare part for installations and service kits. Combined with the conical TrueDrop interface, it delivers optimized break-loose torque and improved handling.

MATERIAL & SPECIFICATIONS

- Material: PA6 + 30%GF
- UV-resistant
- High mechanical strength
- Excellent dimensional stability
- Designed for indoor use
